SKILLS

- Languages: C++, Javascript
- Frameworks: Node.js, Express.js, React.js, jQuery, Bootstrap
- Tools/Platforms: MySQL, MongoDB, Linux, Git, GitHub, VS Code, AWS (EC2, S3 – Basics)
- Soft Skills: Problem-Solving Skills, Team Collaboration, Adaptability, Multitasking

PROJECTS

Autonomous AI Vehicle Website | (Github)

Dec' 25

- Designed and developed a full-stack MERN website featuring a futuristic luxury vehicle interface with a dark premium UI.
- Implemented glassmorphism effects, 3D hover animations, mouse-based tilt, parallax scrolling, and smooth transitions.
- Built a fully responsive, clean, and minimal layout to demonstrate creative front-end design and interactive UI/UX skills.

Tech: React.js, Node.js, Express.js, MongoDB, JavaScript, Tailwind CSS, Google Gemini API

Autonomous-QA-Agent | (Github)

Sept' 24

- Developed an Autonomous QA Agent that autonomously tests web applications using browser exploration.
- Used JavaScript and Playwright to simulate human-like web interactions and generate structured quality insights.

Tech: JavaScript (Node.js), Playwright, Browser Automation, DOM Interaction, Git & GitHub

TRAINING

Pregrad | Certificate

Jun' 24- Sep' 24

MERN Stack Development Training

- Completed hands-on MERN Stack training covering React.js for frontend development, Node.js & Express.js for backend REST APIs.
- Built full-stack applications with CRUD operations, frontend–backend integration, and basic authentication workflows.
- Used industry tools like Postman, Git/GitHub, npm, and VS Code for API testing, version control, and development.

CERTIFICATES

- UI/UX Designing (Certificate)
- Cloud Computing with AWS (Certificate)
- The Complete Full-Stack Web Development Bootcamp (Certificate)

Dec' 25

Sept' 24

Jan' 23

ACHIEVEMENTS

Wission Organisation x TechFest:

- Coordinated communication between faculty, volunteers, and participants to ensure seamless collaboration.
- Managed schedules and on-ground activities to ensure smooth and timely fest execution.

TetraByte Hackathon:

- Built a functional prototype within a limited timeframe.
- Applied problem-solving and debugging skills in a team environment.

EDUCATION

Lovely Professional University
Bachelor of Technology - Computer Science and Engineering: CGPA: 6.9

Punjab, India
Aug' 22 – Present

M.D International School
Intermediate; Percentage: 75.8

Bijnor, U.P
Mar' 21 – May' 22

M.M Public School
Matriculation; Percentage: 88.4

Bijnor, U.P
Mar' 19 – May' 20
